SIMATS ENGINEERING
ASSESSMENT TOOL 1

COURSE NAME: CSA07 **COURSE CODE:** Computer Networks

COURSE OUTCOME COVERED

CO1: *Apply the functions of OSI layer in enabling reliable data transmission across networks. (BL2, BL3)*

Assessment Tool Weightage: 40%

Annexure A

SHORT ANSWER TEST

Code of Conduct:

I Dhakshitha.A *(Name / Reg No) certify that this submission is my original work that I have adhered to the guidelines specified for this assessment.*
I understand that any violation of academic integrity rules will result in disciplinary acti

Assessment-1

35/40

1) Given,

File size = 150MB
Bandwidth = 50mbps
segment size = 1500 bytes
Data link overhead per frame = 40 bytes

As. 1MB = 1,000,000 bytes
1byte = 8bits

Converting file size into bytes
150MB = 150 x 1000000
= 150,000,000 bytes

Number of segments = $\frac{\text{file size}}{\text{segment size}}$
~~Bandwidth~~

= $\frac{150,000,000}{1500}$

= 1000,000 segme

each segment is encapsulated in
ta link frame.

NO of frames = 1000,000

ach frame has 40bytes of overh

Total overhead = 100,000 x 40
= 4000000 byt
= 4MB
